WE ARE LONDON SQUARE

# Making London Greater

**We are dedicated to making London even greater. Founded in 2010, our name was inspired by the ethos of London's famous squares – landmarks renowned for their legacy and community.**

Now part of the Aldar Group of companies, London Square and Aldar are committed to creating world-class developments, anchored in high quality design, sustainability, and customer service excellence – building award-winning homes where people really want to live.

We are proud to be at the heart of delivering much-needed new homes and communities – revitalising forgotten, neglected corners of Greater London and beyond in key commuter locations. Our sites are in well-connected districts, close to good transport links and local amenities. They range from apartments for first-time buyers to smart family homes, from grand restorations and conversions to contemporary, destination developments. We also create affordable homes for shared ownership through our independent housing provider, Square Roots, established by London Square in 2022.

Our customers inspire every part of our process, they determine where we build,

how we build and, above all, why we build. Every home encompasses inspiring architecture, clever design and specification and the highest standards of energy efficiency.

Creating a sense of place is embedded in every London Square development, with attractive landscaped gardens and open spaces, often with new shops and offices, redefining and helping to transform neighbourhoods and contribute to the local economy.

We are delighted to be creating exceptional new homes here at Twickenham Green, our fourth development in the London Borough of Richmond. This is one of the most coveted areas to live in London, offering the highest quality lifestyle from every aspect – spectacular green spaces, excellent schools, first-class amenities and fast transport links. We are working with existing residents, schools and businesses to make our development part of the local fabric, encouraging thriving communities to flourish to make a positive difference to people's lives – embodying the spirit of London Square.

CHIEF EXECUTIVE AND FOUNDER

# Adam Lawrence

**When I launched London Square, I set out to create a company with strong values exemplifying what I call 'old school principles'. A company with exacting disciplines and the highest of standards.**

My inspiration was London's beautiful squares, created by the great architects. I wanted to reflect the sense of community created over the centuries by these prized green pockets, fringed by homes where people choose to live.

More than a decade of development has given the company our own heritage of over 20 award-winning schemes and more than 50 glittering prizes for delivering exceptional homes and bringing communities together across Greater London.

We are proud to announce the launch of our latest development: London Square Earlsfield, an exciting new address for South West London bordering the 32-acre Springfield Park, fringed by mature trees and green open spaces.

Our collection of beautifully designed heritage-inspired houses and apartments reflect the architecture of this historic area of the capital. Our premium homes in this new village setting are part of the regeneration of Springfield Village, a community-led transformation which is delivering a new destination with a true sense of place.

London Square always builds homes in well-connected areas. London Square Earlsfield has excellent transport links and is surrounded by some of the most desirable districts in South West London – Balham, Clapham, Battersea, and Wandsworth.

Reflecting our ethos of creating homes for everyone, London Square Earlsfield will also encompass a series of stylish buildings featuring high-quality homes for shared ownership, assisted living and affordable rent.

When I look at a map of the capital and its commuter belt across Surrey, Hertfordshire, Kent and Essex – there is now a little bit of London Square in most boroughs – and that makes me very proud.
